Release of version 1.4.1.

I posted the component Mydyngallery on Joomla.org and some failures have been reported before approval.

So I made the corrections requested by joomla.org. I can not fail to give you the links as soon approval.  
This version 1.4.1 board the following corrections:

- \* No display effects with the way SEF
- \* Displaying a mistake "is not defined hs"
- \* Size fields increased (The description of the gallery passes 1000 characters ...)

Remember version 1.4 is available:

- \* French
- \* In English

and soon in other languages. If you want to contribute to translate the component in Spanish, Swedish, German and so on ..., do not hesitate to express in the forum.

See you soon.
